RADIO FITTER

Service No: 632351 Rank: Sergeant
Name: Ramchandra Raosaheb Shewale

1. Successfully completed a course of instruction of Radio Communication Engineering for 52 weeks at Communication Training Institute, Air Force on April 1978.
2. During this training following subjects are covered.

Basic subject:

a) Advanced knowledge of Mechanics, Science Mathematics, Theory of Electricity and Magnetism, Electro dynamics, motors and generators, Poly phase power supply system, cell and accumulators, Theory of measuring instruments.

b) Advanced Radio Theory, Electro acoustic Transistor Theory, Theory of Communication equipment of low, high and very high frequency including SSB. Theory of propagation, principles of troposcatter.

c) Knowledge of various types of measuring instruments and their application ~~equipments~~ in relation to various types of Communication equipments.

Workshop Engineering:

Sound knowledge of application of various hard tools, precision instruments for measuring and marking out tools, Elementary knowledge of properties of metals and alloys including simple treatment, knowledge of various types of cables used in Electronics application, interpretation of blue prints and workshop

drawing. Ability to manufacture ~~both~~ jobs. Knowledge of wiring electronics circuits both conventional and printed circuitry.

Specialist Training:

a) Sound knowledge of various types of Communication and Navigation equipments Both Airborne and Ground very high frequency Direction finding equipment instrument landing system. Radio beacons and very high power transmitters and their associated Aerial system.

b) Sound knowledge of various types of Teleprinters and Telex systems, Auto high speed equipment, coding machine, inter-com system, Public ~~system~~ address system, Recording equipments, Telephone switch boards and other land line communication equipments, servicing and maintenance of batteries, petrol electric

and various types of diesel engines. Calibration, testing and aligning of all electronic equipment in use by using precise test equipments. Servicing, testing, maintenance, overhaul and installation of various types of Airborne Ground Electronic equipments. Erection and testing of various types of Aerial systems associated with Airborne and Ground Electronic equipments. Ability to maintain communication through Morse and Teleprinter as well as install and maintain a typical communication cabin. Ability to control independently a signal communication set-up, management, maintenance or records rendering or returns and operating and controlling stores. Ability to execute large scale electronic installation both in Aircraft as well as ground communication set

c) Thorough knowledge of civil and military communication procedure including direction finding, services and operation of wireless Telegraphy by use of morse code upto 22 WPM operation of high frequency direction finding stations, operation of high speed morse equipment and teleprinter equipment including Tape Relay net works.

3) During the period of his service with the Indian Air Force he has served in various establishments and efficiently discharged duties entrusted to him.

He bears an Exemplary character and Exceptional Trade Proficiency.

Issued I Card No.
